SUMMARY

Product designer with 3+ years and 20+ shipped products in B2B SaaS — POS, ERP, dashboards, and CRM for web, iOS, and Android. I own design end to end: research, user flows, high-fidelity UI, and developer handoff, with a focus on making complex, data-heavy systems clear and easy to use. I also build and run design systems with tokens and Figma variables, and I mentor other designers on how to scale them.

CORE SKILLS

UX & Research: User Research, Usability Testing, Heuristic Evaluation, Competitor Analysis, Journey Mapping

Product & IA: End-to-End Product Design, Complex SaaS Flows, Dashboards & Data Viz, AI-Powered Features, Onboarding

UI & Interaction: Visual Design, Typography, Interaction Design, Microinteractions, Responsive Web & Mobile

Design Systems: Design Tokens, Figma Variables, Component Libraries, Multi-Theme & RTL, Developer Handoff

Tools: Figma, FigJam, Framer, MCP for Figma, Notion, Accessibility (WCAG)

PROFESSIONAL EXPERIENCE

Product Designer — Tappya

Full-Time, Remote

May 2025 – Present

B2B SaaS — F&B

- Lead designer for a B2B SaaS platform covering POS, ERP, KDS, and digital menus, owning design from MVP through V2.
- Turn business requirements into user flows, product roadmaps, and UI across web, iOS, and Android.
- Built and maintain the design system with tokens and Figma variables to keep the UI consistent across every platform.
- Designed AI-powered analytics for F&B operations, based on competitor analysis and user research across the MENA region.
- Made developer handoff faster with clear documentation and reusable components, which cut back-and-forth during build.

UI/UX Designer — Lyve Global

Full-Time, On-site

Sep 2024 – May 2025

Maadi, Cairo, Egypt

- Ran UX audits across the ordering flow to find friction points and decide what to fix first.
- Tested designs with users and improved high-fidelity wireframes based on their feedback.
- Designed the Sales Summary and Variation Summary reports for the POS, making multi-metric data easier to read for decision-makers.
- Built a Figma design system and worked with developers to ship consistent, pixel-accurate UI.

UI/UX Designer — Integrated Computer Systems (ICS)

Full-Time, Remote

May 2024 – Sep 2024

- Designed a mobile app for restaurant owners to track sales, inventory, and staff through simple dashboards.
- Turned operational data into clear charts and KPIs so owners could make faster decisions.
- Built multi-location flows so owners could manage several branches from one screen.

UI/UX Designer — GCSSD

Full-Time, On-site

Jan 2023 – Sep 2024

Nasr City, Cairo

- Sole designer for complex CRM and ERP systems in hospitality and healthcare, owning the full design cycle.
- Mapped user flows and wireframes that made dense business logic clear for hotel and hospital teams.
- Built high-fidelity prototypes and ran usability tests to validate and refine features with real users.

UX Design Intern — Kimit Innovation Technology

Internship, Remote

Nov 2022 – Jan 2023

- Improved the UI and flows of an e-learning mobile app and web platform.
- Supported early UX research and helped the senior team with wireframing and visual design.

Graphic Designer — Rise Company

Full-Time

Mar 2020 – May 2022

Al Fayoum, Egypt

- Designed branding, marketing materials, and social media content for a range of clients.
- Built a strong base in typography, color, and composition that still informs my UI work today.

COMMUNITY & VOLUNTEER

Design Systems Mentor — OO Design Community

Seasonal, Remote

Jul 2025 – Present

- Mentored 50+ designers in design tokens and scalable design systems across 3 training rounds.
- Broke down complex design-system architecture to help students connect UI design with developer handoff.
- Led deep-dive sessions to solve technical problems and clear up common misunderstandings about tokens and components.

EDUCATION

Bachelor of Art Education — Al Fayoum University

Foundation in artistic techniques, composition, and visual psychology.

2014 – 2018

UI/UX Design Track — Information Technology Institute (ITI)

Intensive Code Camp (ICC), MCIT — Ismailia branch. Hands-on UX research, wireframing, prototyping, and design-system fundamentals.

Jul 2022 – Nov 2022

TRAINING & CERTIFICATIONS

Master Design Systems: Build, Scale, Deliver — Zomra

Hands-on bootcamp on architecting, scaling, and delivering design systems: component libraries, governance, documentation, and developer handoff in Figma.

Jul 2025 – Sep 2025

Design Tokens Bootcamp (Figma Variables) — Zomra

Practical training in design tokens with Figma Variables: multi-theme systems, semantic token layers, and token-to-code workflows for production.

Apr 2025 – Jul 2025

UI/UX Master Bootcamp — Tremoloo

30+ hours of applied user research, UX methods, and end-of-track assessments.

Jan 2025 – Feb 2025
